adhesives

DESCRIPTION

Tile + Grout Cleaner is a phosphoric acid based cleaner designed to remove cement scale, dirt, oils, grease and soap scum from ceramic tiles and grout.

FEATURES & BENEFITS

- Phosphoric acid based to remove cement scale
- Easy application
- Surfactants present to remove dirt
- Clean, fresh fragrance
- Grease cutting ingredients

RECOMMENDED FOR

- Ceramic tiles in kitchens
- Ceramic tiles in bathrooms
- Cement based wall & floor grouts

APPLICATION

For spot cleaning and initial clean: spray directly onto affected area, allow 5 minutes to react, then scrub area with a soft brush then rinse clean with water. For general cleaning: pour 200ml into 5 litres of warm water and mop over the floor.

CLEAN UP

Excess product can be cleaned up with a damp cloth.

PACKAGING

750ml plastic spray bottles.

SAFETY PRECAUTIONS

Avoid contact with skin and eyes. Wear protective gloves when applying product. If contact with skin occurs, wash with copious amounts of water. If contact with eyes occurs, flush with copious amounts of water ensuring eyes are irrigated for at least 15 minutes. If ingested, do not induce vomiting. Give plenty of water to drink. Consult physician. For more detailed information refer to product MSDS.

SHELF LIFE

Unopened containers can be stored for up to 12 months in a cool, dry and weatherproof environment.

LIMITATIONS

- Not suitable for use on marble, limestone, granite, or re-constituted stone.
- Do not leave on dark coloured grout for long periods as this may affect the colour of the grout.
- Do not use on chrome or stainless steel.
